

PAISLEY playing cards

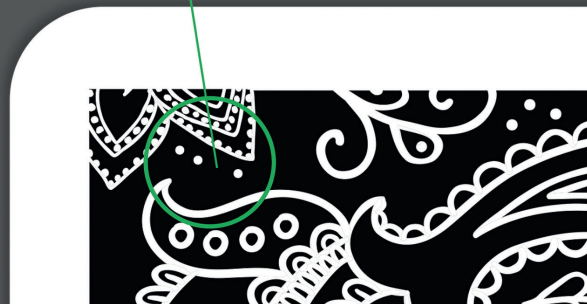

the marking system

The Marking System of Paisley Playing Cards

This marking system gives you a lot possibilities. The system is well hidden in the detailed back design and dead simple to read!

Suits in SHoCkeD order

In de upper left corner of every back you find the Suits dots in SHoCkeD order. The missing dot is your chosen Suit.

A little more centered but still in the left corner, you find the flower for the marking of the values. If you can read a clock, you will instantly know the value of the card.

The petals indicate the value of the card by reading a clock. Is the petal colored at 8 o'clock, the value of your card is the 8.

When the dot in het center of the flower is colored, your card is a King. The Jokers and gaff cards aren't marked at all.
